Localization, cooperation department of expansion of relations and optimization of imports

Salomov Abduxomid Ruziyevich

Head of the Localization, cooperation department of expansion of relations and optimization of imports of JSC "Uzkimyoanoat"

Phone: [+998781407468](tel:+998781407468)

E-mail: a.salomov@uks.uz

Work experience

2020-y. - present Head of the Localization, cooperation department of expansion of relations and optimization of imports of JSC "Uzkimyosanoat"

Responsibilities

- Forming current and prospective programs for the localization of chemical industry products, taking into account the available resources of the economic entities within the company, based on the analysis of imports of highly demanded chemical products in the republic;
- Developing proposals to widely attract partners for industrial cooperation in the production of the most in-demand types of import-substituting products, based on the study of the capabilities and proposals of companies (enterprises) and organizations;
- Localizing the production of finished products, components, and materials based on industrial cooperation and local raw materials by introducing the results of scientific research and modern innovative technologies into the production process of domestic industrial goods, as well as expanding cooperative relations across the sectors of the economy;
- Coordinating activities related to organizing the participation of the company's economic entities in the annual Industrial Cooperation Fair;
- Analyzing the annual import request lists of the company's economic entities in order to exclude from them products that have domestic analogues produced in the republic, and preparing the corresponding internal commission protocol for the purchase of imported products that are not manufactured domestically.
